

I am a over the road truck driver. Every day the I deal with the northern Va. traffic. I know with XM Radio I have constant coverage of traffic and weather broadcast. This is a must for truck drivers. Knowing when ever you need the traffic report it is right at your finger tip. The weather is also a must have for drivers. Xm gives you what other radio station can't give you. So please reject the NAB's petition 04-160. Because Xm is the only radio station that i listen to. With out XM I am completely lost.
